Relevant Key Skills

- Anaplan model building skill
- Financial Planning and Consolidation
- Reporting and analysis
- Various industry experiences (retail, telecommunications, food and beverage, manufacturing, real estate, Hotels and Resorts)

Anaplan Project Experience

Ayala Hotels

Implemented Anaplan for the Hotel Bookings and Accommodations, Restaurant and Man-Power Planning, Budgeting and Forecasting. Anaplan replaced the use of multiple spreadsheets and consolidated all their files and reports in one Model.

1. **Hotel Bookings and Accommodation** – Analysis of actual Hotel Bookings and Occupancy Rates compared to budget. Used the previous year's data to create the budget and forecast.
2. **Manpower Budgeting** – Planning for Manpower in relation to peak and lean season Man Power requirement. Determines the need for additional resources during peak season.
3. **Restaurant Profitability** – Budgeting and Analysis of Restaurant Profitability

Ten Knots Development Corporation

Implemented Anaplan for the Automation of the Consolidated Management Reports

1. **Management Reports** – Data coming from SAP is fed in Anaplan that will generate the Management Reports per Resort and also the Consolidated Management Report for Ten Knots Development Corporation.
