GREAT NEWS!

Anaplan Gold Partner

Scanomi has been recognized as the Anaplan Gold Partner for 2021. It's no ordinary feat because Anaplan GOLD Partner tier status is awarded for Proven Capabilities at managing Complex Planning & Forecasting Requirements & delivering Exceptional Customer Experience, together with significant contribution in Thought Leadership. Thank you for your continued support while we strive to better ourselves.

RSI Partner of the Year 2021

This distinguished partner recognition exemplifies a customer-first mentality, delivering the sector expertise customers need to drive growth and deliver value through digital transformation. We are humbled to receive this award.

ON-DEMAND FORECASTING

Forecasting & Planning: Simple & Affordable

Scanomi continues its innovative stint and with budget constraints plaguing many industries, we have designed on-demand solutions that are simple and cost effective for Anaplan solution seekers.

Benefits of On-demand Forecasting:

1. Pay as you go. No upfront costs or expensive software.
2. Get started as early as tomorrow with minimal contractual formalities.
3. Get quick access to detailed, accurate, & justifiable forecasts without commitments.
4. Customize our forecasting solutions to your requirements.

Getting Started:

1. Enter into a Non-disclosure agreement.
2. Virtual call to understand forecasting requirements.
3. Share historical data for analytics.
4. Review & validate forecasting results with metrics.
5. Define forecasting schedule for future requirements

WEBINAR

Predictive Forecasting Techniques

We recently hosted a webinar on Predictive Forecasting techniques. The following were the takeaways from the webinar:

- Discover a range of DATA ANALYSIS TECHNIQUES to generate detailed, accurate & justifiable forecasting reports.
- Learn the different QUALITATIVE & QUANTITATIVE methods to business forecasting & what they mean to your business.
- A LIVE Demo of our PREDICTIVE FORECASTING solution.
- A step-by-step guide to request for our ON-DEMAND FORECASTING solution.

You can watch the webinar recording here:
